

SRIKANTH B

Chennai, Tamil Nadu | +91 6380764806 | sri262085@gmail.com | github.com/iblamesrix

PROFESSIONAL SUMMARY

Full Stack Python Developer with experience building scalable web applications, machine learning systems, and AI-powered solutions. Skilled in Python, Django, Flask, TensorFlow, OpenCV, REST APIs, backend development, computer vision, and deep learning workflows with strong focus on performance optimization and production-ready deployment.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS | **Frameworks:** Django, Flask, TensorFlow, Keras, OpenCV, Scikit-learn | **Tools:** Git, GitHub, Linux, VS Code, Netlify | **Concepts:** Machine Learning, Deep Learning, Computer Vision, REST APIs, OCR, Full Stack Development

EDUCATION

B.Sc Computer Science — Bishop Heber College | CGPA: 6.7

Relevant Coursework: DBMS, Operating Systems, Machine Learning, Artificial Intelligence, Web Development

PROJECTS

Deep Learning Object Detection System

- Built CNN-based object detection model on 1000+ images achieving 85% accuracy.
- Reduced processing time by 30% using optimized preprocessing pipelines.
- GitHub: github.com/iblamesrix

Soil Analysis & Fertilizer Recommendation

- Developed ML recommendation system trained on 2000+ records with 88% accuracy.
- Improved recommendation precision by 25% through feature engineering.
- GitHub: github.com/iblamesrix

E-Commerce Web Application

- Developed full-stack Django application supporting 100+ products.
- Improved load speed by 40% with database and asset optimization.
- GitHub: github.com/iblamesrix

Automatic Number Plate Recognition (ANPR)

- Built OCR-based vehicle plate recognition system achieving 80% accuracy.
- Enhanced recognition reliability by 20% using OpenCV image enhancement.
- GitHub: github.com/iblamesrix

INTERNSHIP

Python Full Stack Development Intern — Besant Technologies (2024)

Built and deployed web applications using Python, Django, Flask, JavaScript, and SQL. Worked on API integration, debugging, responsive UI development, and deployment workflows.

CERTIFICATIONS

Python Full Stack Development Certification | Machine Learning & Deep Learning Projects | Git & GitHub Practice
